Leading the Web to its Full Potential...
Activities | Technical Reports | Site Index | New Visitors | About W3C | Contact Us
The World Wide Web Consortium (W3C) develops interoperable technologies (specifications, guidelines, software, and tools) to lead the Web to its full potential. W3C is a forum for information, commerce, communication, and collective understanding. On this page, you'll find W3C news, links to W3C technologies and ways to get involved. New visitors can find help in Finding Your Way at W3C. We encourage you to learn more about W3C.
